***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8-14 & 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Krenek (US 6,106,209).

With respect to claim 8-14 & 17, Krenek discloses a chock assembly comprising a trolley 36, chock curved portion 26, 28, hinge 50 pivotably connect chock to trolley and a hinge axis (C3/L40-43). Further, Applicant is respectfully reminded that claim language consisting of functional language and/or intended use phrasing is given little, if any, patentable weight as the apparatus must merely be capable of functioning, or being used, as claimed. See MPEP 2112.02, 2114. Here, Krenek's chock is certainly capable of being coupled to a transport via a track as it comprises wheels 37.

***Allowable Subject Matter***

Claims 1-7, 15-16 & 22-23 are allowed. The cited prior art does not disclose a rocket engine, e.g. object, transport, trailer and track having longitudinal axis trailer tail support member, tail support member notch, trolley coupled to and travels along trailer track, chock rotably coupled to trolley, pair of bearing assemblies pair of cradle assemblies, cradle trunnions and a trunnion rotation axis perpendicular to trailer longitudinal axis.

***Response to Arguments***

Art Unit: 3652

Applicant's arguments with respect to claims 8-14 & 17 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
